

NEO NICOLAS

Computer Science Student | Aspiring Full-Stack Web Developer

San Rafael, Bulacan | 0926 004 6486 | neonicolas19@gmail.com

CAREER OBJECTIVE

Motivated Computer Science student seeking an On-the-Job Training (OJT) opportunity to apply my skills in software development, web development, and database management. Passionate about building real-world applications, eager to learn from experienced developers, and committed to becoming a skilled Full-Stack Web Developer.

PERSONAL INFORMATION

Date of Birth: November 19, 2004 **Age:** 21 **Nationality:** Filipino

EDUCATIONAL BACKGROUND

Baliuag University 2023 – Present
Bachelor of Science in Computer Science

STI College Baliuag
STEM (Senior High School)

Our Lady of Mount Carmel College
Junior High School

Pinac-Pinacan Elementary School
Elementary

TECHNICAL SKILLS

Programming: PHP, JavaScript, HTML5, CSS3

Database: MySQL, phpMyAdmin

Tools: Git, GitHub, Hostinger

Concepts: REST API, Database Design, Authentication & Authorization, Role-Based Access Control (RBAC)

ACADEMIC PROJECTS

PinacConnect – Barangay Management System (Capstone)

Role: Lead Full-Stack Developer (Sole Developer)

Technologies: HTML, CSS, JS, PHP, MySQL, phpMyAdmin, GitHub

- Developed and deployed a full-stack Barangay Management System, handling the project from requirements gathering and system design to implementation and deployment.
- Engineered the complete stack: backend, frontend, relational database, REST API, and a companion mobile application, all integrated into one cohesive platform.
- Implemented enterprise-level security measures OTP authentication, identity verification, CSRF protection, rate limiting, and role-based access control to protect resident data.
- Delivered 7 core modules (Residents, Households, Blotter, Complaints, Document Requests, Events) plus an AI-assisted chatbot, streamlining barangay operations end-to-end.
-

The Matrix Hotel – Hotel Reservation Platform (OJT Project)

Role: Full-Stack Developer (Sole Developer)

Technologies: React, Next.js, Laravel, PHP, MySQL, Tailwind CSS

- Built a full-stack hotel reservation platform for my OJT, with a guest-facing booking site and a staff admin panel.
- Implemented real-time room availability, an admin dashboard for managing bookings, rooms, and photos, and an AI-powered chat assistant.
- Built a React/Next.js frontend against a Laravel/MySQL backend specifically to gain hands-on PHP/Laravel experience.

Event Register – Seminar Registration Website

Role: Full-Stack Developer (Sole Developer)

Technologies: React, Laravel, MySQL

- Developed a seminar registration website with automated email confirmations for registrants.
- Built a React frontend against a Laravel backend and deployed it on Laravel Cloud.

Live Demo: <https://event-register-production-mftjyy.laravel.cloud>

Personal Portfolio Website

Role: Solo Developer

Technologies: React, Next.js, Tailwind CSS

- Built a personal developer portfolio from the ground up to learn the React/Next.js ecosystem, including the App Router, Tailwind CSS, and dark mode.
- Designed and implemented a project showcase, skills section, and a working contact form with email delivery.
